

# Royston St John Baptist CE Primary

## Subject on a page- Geography

Our geography curriculum has been planned using the National Curriculum for Geography. It is taught through a topic-based approach, allowing children to explore the local area and gain an understanding of the world as a whole.

Geography has four key strands:

These are:

- Locational and place knowledge
- Human geography
- Physical geography
- Geographical skill and fieldwork.

We cover a variety of topics across school, including:

- Where we are in the world, including a study of our school and local area (Royston).
- 7 Continents and 5 Oceans.
- Coastlines and rivers.
- Countries across the world (UK, Jamaica, Egypt, Greece).
- Cities (London)
- Earth
- Biomes and Natural Resources
- Mountains, volcanoes and earthquakes

*“The study of geography is about more than just memorising places on a map. It’s about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it’s about using all that knowledge to help bridge divides and bring people together....”*
